[20150612 17-mile BERA Schedule to EPA.pdf](#)
[20150612 Exposure Depth Dispute Resolution.pdf](#)
[20150612 LPRSA BHHRA Prelim RTC.pdf](#)

Stephanie:

Attached are three letters delivered to USEPA Region 2 on behalf of the Cooperating Parties Group (CPG) as well as a discussion of the Region's COPC paper and the planned meeting for June 16.

1. 17-mile BERA Schedule - this letter discusses the CPG's inability to comply with Region 2's May 1 directive to submit a revised BERA within 60 days (by June 29, 2015); this is due to the fact that the Region has not provided the additional information related to Comments 6 and 71 promised in its May 1, 2015 BERA comments.

2. Exposure Depth Dispute Resolution - this letter invokes dispute resolution on the Region's rationale for rejecting CPG's proposed exposure depths for the 17-mile LPRSA outlined in Region 2's June 1, 2015 letter.

3. LPRSA BHHRA Preliminary Response to Comments - this letter identifies a number of significant concerns identified by the CPG in its initial review of the Region's 17-mile BHHRA comments provided by Region 2 on June 5, 2015.

4. COPC Paper and Meeting - The CPG acknowledges receipt of Region 2's June 10, 2015 paper on COPC mapping. Due to the short interval (3 working days) between its delayed receipt on June 10 and the EPA-CPG meeting scheduled for June 16, the CPG believes the meeting should be postponed so that the CPG and its consultants have adequate time to review the COPC paper. In order to review and understand the findings of the paper, the CPG requests that Region 2 provide all underlying documentation (e.g., data sets, spreadsheets, input and output files etc.) that were used to produce this paper. In addition, the CPG requests the results of any simulations runs in support of Sections 6.2 and 6.3 of the white paper beside the results discussed in the paper.

Please contact Bill Potter or me with any questions

Thank you.
